Interim Management's Discussion & Analysis – Quarterly Highlights
Three Months Ended August 31, 2022
Dated: October 31, 2022

Introduction

The following interim Management's Discussion and Analysis ("Interim MD&A") of S2 Minerals Inc. (the "Company" or "S2") for the three months ended August 31, 2022 has been prepared to provide material updates to the business operations, liquidity and capital resources of the Company since its last annual management discussion & analysis, being the Management's Discussion & Analysis ("Annual MD&A") for the year ended May 31, 2022. This Interim MD&A does not provide a general update to the Annual MD&A, or reflect any non-material events since the date of the Annual MD&A.

This Interim MD&A has been prepared in compliance with section 2.2.1 of Form 51-102F1, in accordance with National Instrument 51-102 – Continuous Disclosure Obligations. This discussion should be read in conjunction with the Annual MD&A, audited annual financial statements of the Company for the year ended May 31, 2022 and the period from November 30, 2020 (date of incorporation) to May 31, 2021, together with the notes thereto, and unaudited condensed interim financial statements of the Company for the three months ended August 31, 2022, together with the notes thereto. Results are reported in Canadian dollars, unless otherwise noted. The Company's unaudited condensed interim financial statements and the financial information contained in this Interim MD&A are prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board and interpretations of the IFRS Interpretations Committee. The unaudited condensed interim financial statements have been prepared in accordance with International Standard 34, Interim Financial Reporting. Accordingly, information contained herein is presented as of October 31, 2022, unless otherwise indicated. For the purposes of preparing this Interim MD&A, management, in conjunction with the Board of Directors (the "Board"), considers the materiality of information. Information is considered material if: (i) such information results in, or would reasonably be expected to result in, a significant change in the market price or value of the Company's common shares; (ii) there is a substantial likelihood that a reasonable investor would consider it important in making an investment decision; or (iii) it would significantly alter the total mix of information available to investors. Management, in conjunction with the Board, evaluates materiality with reference to all relevant circumstances, including potential market sensitivity.

Further information about the Company and its operations can be obtained from the offices of the Company or from www.sedar.com.

This Interim MD&A contains forward-looking information as further described in the "Cautionary Note Regarding Forward-Looking Statements" at the end of this Interim MD&A. Please also refer to those risk factors identified or otherwise indirectly referenced in the "Risk Factors" section below.

Qualified Person

Daniel Noone, (Member of the Australian Institute of Geoscientists) is a qualified person as defined by National Instrument 43-101 – Standards of Disclosure for Mineral Projects "NI 43-101" and has reviewed and approved for inclusion the scientific and technical disclosure in this Interim MD&A. Mr. Noone is also the Chief Executive Officer of the Company.

Description of Business

S2 was incorporated on November 30, 2020, under the laws of the Province of Ontario. The Company's head office is located at 141 Adelaide Street West, Suite 1101, Toronto, Ontario, Canada, M5H 3L5. The Company was incorporated for the sole purpose of participating in the plan

of arrangement (the “Spin-Out”) announced February 2, 2021, involving the Company and G2 Goldfields Inc. (“G2”).

The Spin-Out received shareholder approval on March 29, 2021, and Ontario court approval on March 31, 2021. The Spin-Out was completed on April 9, 2021.

Operational Highlights

There were no significant corporate activities during the three months ended August 31, 2022.

Mineral Exploration Properties

The Company has not yet determined whether the Company’s properties contain an economic mineral reserve. There are no known reserves of minerals on any of the Company’s mineral exploration properties and any activities of the Company thereon will constitute exploratory searches for minerals. See “Risk Factors” below.

The Sandy Lake property (the “Sandy Lake Property”) is a group of mineral claims located approximately 225 kilometres (km) north of Red Lake, northwestern Ontario.

The Fort Hope district group of mineral claims located approximately 560 kilometers (km) north of Thunder Bay, northwestern Ontario

Mining Claims

The Sandy Lake Property consists of 3,225 cell mining claims. The details for the current project land holdings are provided in Table 1.1 and Table 1.2. All claims within the Sandy Lake Property are contiguous.

G2 agreed to transfer all Sandy Lake Property claims to S2 in connection with the Spin-Out. On January 6, 2021, G2 staked online an additional 533 claims. All active claims were transferred to S2 on January 21, 2021, on MLAS claim management system for Ontario. However, all claims on "Special Circumstances" cannot be accessed at MLAS registry system for claim transfer due to the current province wide "Special Circumstances Hold" on all claims due for assessment. This includes those claims with an expiry date in 2019, which were originally the subject of an Exclusion of Time application while G2 continued consultation discussions with the relevant First Nations. When the provincial COVID-19 restrictions and quarantine were imposed, these were automatically converted to "Special Circumstances" and when COVID-19 restrictions are lifted, the consultation travel and discussions will resume. Accordingly, G2 transferred its beneficial interest in such claims to S2 in connection with the Spin-Out and will transfer its nominee interest in due course.

G2 and Goldeye Joint Venture Agreement

On April 15, 2015, Goldeye Explorations Limited ("Goldeye") entered into an option agreement with GPM Metals Inc. ("GPM"). In July 2016, GPM assigned all its rights under the option agreement to Sandy Lake Gold Inc. In April 2019, Sandy Lake Gold Inc. was renamed G2 Goldfields Inc.

The 2015 option agreement originally provided that G2 could earn up to a 70% interest in the Sandy Lake Property by achieving certain milestones. In November 2020, G2 notified Treasury Metals, the parent company of Goldeye, that it had fulfilled the requirements under the option agreement to earn a 50.1% legal and beneficial interest in the Sandy Lake Property. As such, Goldeye and G2 signed a joint venture agreement with an effective date of November 9, 2020, that provides that G2 would forgo its rights to acquire the additional 19.9% further interest in the Sandy Lake Property under the 2015 option agreement. The value of each participant's initial contribution in the 2020 joint venture for G2 is \$5,000,000 and for Goldeye is \$4,980,040. As such, G2 has a 50.1% (which was transferred to S2 in connection with the Spin-Out) and Goldeye has a 49.9% initial participating

interest. Participants are obligated to contribute funds to approved programs and budgets in proportion to their respective participating interests from and after the effective date.

In 2018 and 2019, G2 staked additional cell claims. A new joint venture, named the "South Block Claims JV" ("South Block") on the 50:50 blocks originated from "Additional Claims" that were staked during the period of the option agreement. Under the option agreement, G2 and Goldeye were then obligated to form a joint venture as per clause 8.3 of the option agreement. Clause 8.3 states "The 50/50 Joint Venture will be subject to a separate joint venture agreement to be negotiated and entered into by the Parties once the notified Party in Section 8.2 has elected in writing to have an Additional Interest be part of the 50/50 Joint Venture; provided that the form of the joint venture agreement for the 50/50 Joint Venture shall be substantially in the form of the Joint Venture Agreement with only such changes as are necessary to reflect the participating interests of the parties under the 50/50 Joint Venture". Treasury Metals and its subsidiary Goldeye notified G2 and paid for their half of the staking, consequently G2 has attributed 50% of those "Southern Block Claims" to Goldeye. G2 (and now S2) and Goldeye are in a process of signing the final joint venture agreement.

The participants in the Weebigee and South Block joint venture can change the participating interest if:

- Participant approved program and budget, but they decided not to contribute to expenditures which are a part of an approved program and budget or elected to contribute less than the percentage reflected by its then current participating interest.
- In the event of default by a participant in making its agreed contribution to an approved program and budget.
- Upon transfer by either participant of part or all its participating interest.

If one of the participants elect not to contribute to an approved program and budget at all, or to limit its contributions toward expenditures, which are part of an approved program and budget, its participating interest will be adjusted, following the rules set out in the joint venture agreement.

If a participant elects or defaults in meeting cash calls, three or more times in any 24-month period, or upon the dilution of a participant's participating interest to 10% or less, such participant's participating interest shall convert to the following net smelter returns royalties: a 1.5% net smelter returns royalty on the mineral claims other than the lands that comprise Indian Reserve #88. In that part of the mineral claims where an underlying net smelter returns royalty has been granted to another person as of the date of the option agreement and remains in existence as of the effective date of the joint venture agreement, and the participant whose participating interest is converted will be entitled to receive ongoing royalty payments equal to 1.5% of net smelter returns as calculated and paid in accordance with the royalty terms. On any part of the mineral claims that constitute lands comprising Indian Reserve #88, and where an underlying net smelter return royalty has been granted to another person as of the date of the option agreement and remains in existence as of the effective date of the joint venture agreement and the participant whose participating interest is so converted shall be entitled thereafter to receive ongoing royalty payments equal to 1.0% of net smelter return as calculated and paid in accordance with the royalty terms.

Both companies are willing to maintain a supportive relationship with the Sandy Lake First Nation ("SLFN") to advance the project. Through the joint venture agreement, the participants in the joint venture will continue to work collaboratively with SLFN and build on the existing relationship for the mutual benefit of all parties. SLFN will be an important source of personnel, infrastructure, and

services for the Sandy Lake Property during the early exploration phase, and as the project advances.

The participants in the joint venture have continuing liabilities upon adjustment of their participating interest. Any reduction or elimination of either participant's participating interest does not relieve such participant of its proportionate share of any liabilities, including, without limitation, continuing obligations, environmental liabilities, and environmental compliance, whether arising before or after the reduction or elimination, but prior to such reduction or elimination, regardless of when any funds may be expended to satisfy such liability.

G2 has been granted these exclusions by the Ministry of Northern Development and Mines after work on the claims could not be performed as planned, because work permits were not issued due to complications resulting from the consultation process required under the Mining Act.

Mining Claims - Fort Hope District

S2 mining claims consists of 818 single cell mining claims; 880 single cell mining claims held in trust for S2 by Alex Carpenter; and 9 multi cell mining claims by way of an option agreement between Alex Carpenter and Slam Exploration Ltd. The Option Agreement is held in trust for S2 by Alex Carpenter. Alex Carpenter is a director of the Company.

Forecast 12 Month Budget

The Company's estimated exploration budget on its properties is outlined below:

Sandy Lake Property – Complete Phase 1 of the Exploration Program (Access/Exploration Agreements with First Nations and Geophysical Surveys)	\$364,000
Fort Hope District - Consultation	\$50,000

Trends

Gold prices

During property acquisition, exploration, and financial planning, management monitors gold demand and supply balances as well as price trends. In addition to monitoring gold prices, management also monitors financing activities in the Junior Mining Sector as this represents the sector in which S2 operates. The following table highlights the comparative gold prices which S2 monitors.

Summary of Gold Prices Current Prices with Comparative

COVID-19

Due to the worldwide COVID-19 outbreak, material uncertainties may come into existence that could influence management's going concern assumption. Management cannot accurately predict the future impact COVID-19 may have on:

- Global gold prices;
- Demand for gold and the ability to explore for gold;
- The severity and the length of potential measures taken by governments to manage the spread of the virus, and their effect on labour availability and supply lines;
- Availability of government supplies, such as water and electricity;
- Purchasing power of the Canadian dollar; or
- Ability to obtain funding.

Due to COVID-19 restrictions in place, limited travel or in-person dialogue is available for the Company's projects. S2 is aware of the risks of COVID-19 and in accordance with good practice, will engage in travel and work programs at a suitable junction following confirmatory dialogue with leadership of the Indigenous communities of interest. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of S2 in future periods.

Disclosure of Internal Controls

Management has established processes to provide them with sufficient knowledge to support representations that they have exercised reasonable diligence to ensure that (i) the unaudited condensed interim financial statements do not contain any untrue statement of material fact or omit to state a material fact required to be stated or that is necessary to make a statement not misleading in light of the circumstances under which it is made, as of the date of and for the periods presented by the unaudited condensed interim financial statements; and (ii) the unaudited condensed interim financial statements fairly present in all material respects the financial condition, financial performance and cash flows of the Company, as of the date of and for the periods presented.

In contrast to the certificate required for non-venture issuers under National Instrument 52-109 Certification of Disclosure in Issuers' Annual and Filings ("NI 52-109"), the Venture Issuer Basic Certificate filed by the Company does not include representations relating to the establishment and maintenance of disclosure controls and procedures ("DC&P") and internal control over financial reporting ("ICFR"), as defined in NI 52-109. In particular, the certifying officers filing such certificate are not making any representations relating to the establishment and maintenance of:

- i) controls and other procedures designed to provide reasonable assurance that information required to be disclosed by S2 in its annual filings, filings or other reports filed or submitted under securities legislation is recorded, processed, summarized, and reported within the time periods specified in securities legislation; and
- ii) a process to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with S2's generally accepted accounting principles (IFRS).

The Company's certifying officers are responsible for ensuring that processes are in place to provide them with sufficient knowledge to support the representations they are making in such certificate. Investors should be aware that inherent limitations on the ability of certifying officers of

a venture issuer to design and implement on a cost-effective basis DC&P and ICFR as defined in NI 52-109 may result in additional risks to the quality, reliability, transparency, and timeliness of and annual filings and other reports provided under securities legislation.

Discussion of Operations

Three months ended August 31, 2022 compared with the three months ended August 31, 2021

The Company's net loss totaled \$112,018 for the three months ended August 31, 2022, with basic and diluted loss per share of \$0.00. This compares with a net loss of \$46,121 with basic and diluted loss per share of \$0.00 for the three months ended August 31, 2021. The increase in net loss from the prior year of \$65,897 was principally because:

- Professional fees were \$48,591 for the three months ended August 31, 2022 (three months ended August 31, 2021 - \$30,469). These fees relate to outsourced legal and accounting services required to meet the Company's corporate activities.
- Reporting issuer costs were \$11,985 for the three months ended August 31, 2022 (three months ended August 31, 2021 - \$15,421). These fees relate to ongoing regulatory requirements.
- Office and administrative costs were \$11,534 for the three months ended August 31, 2022 (three months ended August 31, 2021 - \$13). This primarily relates to increased corporate activities for the Company.
- Stock-based compensation expense was \$1,784 for the three months ended August 31, 2022 (three months ended August 31, 2021 - \$nil). This relates to the vested portion of the 300,000 options granted to a director of the Company in fiscal 2022.
- Exploration and evaluation expenditures were by \$13,842 (three months ended August 31, 2021 – \$nil), of which \$13,342 was for the Carpenter Project. S2 continues to pursue its mineral potential modelling of several regions in Ontario, Canada, with the objective of generating new projects. Weebigee joint venture project costs amounted to \$500 (three months ended August 31, 2021 – \$nil).

Cash Flow Items

Operating Activities

Activity for the three months ended August 31, 2022, were cash expended in operations of \$121,610 (three months ended August 31, 2021 - \$112,983). These expenditures relate largely to ongoing corporate operating costs of the Company and its overheads and a pay down of accounts payable.

Investing Activities

Investing activities during the three months ended August 31, 2022 relate to the purchase of short-term investments in the amount of \$nil (three months ended August 31, 2021 - \$10,000).

Financing Activities

Liquidity and Capital Resources

The Company derives no income from operations. The Company’s approach to managing liquidity risk is to ensure that it will have sufficient capital to meet its liabilities when due. As of August 31, 2022, the Company had a cash balance of \$1,692,871.

On February 2, 2021, G2 entered into an arrangement agreement with S2 pursuant to which G2 agreed to transfer its interest in all the mineral claims comprising the Sandy Lake Property and G2’s 50.1% interest in the approximately 15,000 acres of the “Weebigee Joint Venture” claims with Goldeye, now part of Treasury Metals, in exchange for 12,655,667 common shares of S2. In addition, S2 is in the process of acquiring a 50% interest in a further 15,000 acres of the Southern Block claims in a joint venture with Treasury Metals. The outstanding common shares of S2 consists of the common shares issued to G2 as described in the preceding sentence, as of the effective date of the Spin-Out. G2 distributed one common share of S2 for every ten G2 common shares then held by G2 shareholders as of the effective date of the Spin-Out.

The Company was dependent on the successful completion of the offering of rights to acquire common shares of S2 (the “Rights Offering”) that was contemplated in the Spin-Out. The Rights Offering was fully subscribed, and the Company received proceeds of \$1,265,567 in May 2021.

Notwithstanding the foregoing, there may be circumstances where, for sound business reasons, a reallocation of funds may be necessary for S2 to achieve its objectives. S2 may also require additional funds to fulfill its expenditure requirements to meet existing and any new business objectives and expects to either issue additional securities or incur debt to do so. There can be no assurance that additional funding required by S2 will be available, if required. It is anticipated that the available funds will be sufficient to satisfy S2’s objectives for the forthcoming 12-month period. The amounts shown in the table below are estimates only and are based on the information available to S2 as of the date hereof.

Forecast 12 Month Budget

environment, investment in the junior resource sector is greatly impaired. The value of gold and other metals is also volatile and could decline further. The Company is mindful of the current market environment and is managing accordingly. See "Risk Factors".

Key Management Compensation

Key management personnel include those persons having authority and responsibility for planning, directing and controlling the activities of the Company as a whole. The Company has determined that key management personnel consist of executive and non-executive members of the Board and corporate officers, excluding the Chief Financial Officer ("CFO"). The compensation cost for key management personal is as follows:

normal course of operations for filing matters and these amounts are included in reporting issuer costs. As of August 31, 2022, DSA Filing was owed \$4,667 (May 31, 2022 - \$nil).

Major shareholder

To the knowledge of the directors and senior officers of the Company, as of August 31, 2022, no person or corporation beneficially owns or exercises control or direction over common shares of the Company carrying more than 10% of the voting rights attached to all common shares of the Company other than Patrick Sheridan, who owns 15,697,421 (May 31, 2022 – 15,697,421) common shares or 42% (May 31, 2022 – 42%) of the outstanding common shares.

Risk Factors

An investment in the securities of the Company is highly speculative and involves numerous and significant risks. Such investment should be undertaken only by investors whose financial resources are sufficient to enable them to assume these risks and who have no need for immediate liquidity in their investment. Prospective investors should carefully consider the risk factors that have affected, and which in the future are reasonably expected to affect, the Company and its financial position. Please refer to the section entitled "Risk Factors" in the Company’s Annual MD&A for the year ended May 31, 2022, available on SEDAR at www.sedar.com.

Cautionary Note Regarding Forward-Looking Statements

This Interim MD&A contains certain forward-looking information and forward-looking statements, as defined in applicable securities laws (collectively referred to herein as “forward-looking statements”). These statements relate to future events or the Company’s future performance. All statements other than statements of historical fact are forward-looking statements. Often, but not always, forward-looking statements can be identified by the use of words such as “plans”, “expects”, “is expected”, “budget”, “scheduled”, “estimates”, “continues”, “forecasts”, “projects”, “predicts”, “intends”, “anticipates” or “believes”, or variations of, or the negatives of, such words and phrases, or state that certain actions, events or results “may”, “could”, “would”, “should”, “might” or “will” be taken, occur or be achieved. Forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results to differ materially from those anticipated in such forward-looking statements. The forward-looking statements in this Interim MD&A speak only as of the date of this Interim MD&A or as of the date specified in such statement. The following table outlines certain significant forward-looking statements contained in this Interim MD&A and provides the material assumptions used to develop such forward-looking statements and material risk factors that could cause actual results to differ materially from the forward-looking statements.
