G2 Goldfields Inc. (“G2”) agreed to transfer all Sandy Lake Project claims to S2 in connection with the spin-out of G2 pursuant to a statutory plan of arrangement completed on April 9, 2021 (the “Spin-Out”). On January 6, 2021, G2 staked online an additional 533 claims. All active claims were transferred to S2 on January 21, 2021, on MLAS claim management system for Ontario. On December 16, 2022, the Company announced that it had become party to an option agreement (the "Option Agreement") with an arm's-length third party pursuant to which the Company was granted an option to acquire nine mining claims in the Veekay and Rich Lake areas of Ontario. The Option Agreement was originally made between a director of the Company and the third party on December 17, 2021, and was assigned to the Company on December 16, 2022. The Option Agreement requires the Company to make cash payments on each of the first, second, third and fourth anniversaries of the entering into the Option Agreement, with the first payment being made on December 16, 2022.

On December 15, 2023, the Company issued 50,000 common shares (valued at \$3,250) and made the cash payment (of \$150,000) that was required pursuant to the Option Agreement.

On December 6, 2024, the Company declared an event of force majeure on its option agreement due to aboriginal rights issues. The Company does not have any information at this time with respect to the anticipated duration of the event of force majeure.

On April 17, 2023, the Company announced that it had acquired 880 mining claims in the Veekay Lake, Gifford Lake, Opikeigan Lake, Frond Lake, Rich Lake, and Reserve Lake areas in Ontario (the "Assignment Properties").
